Unit Leader or Contingent Leader Name (Print) _____

Unit Leader or Contingent Leader Signature _____

This Record is to be presented at check-in at the Salmon River High Adventure Base.
 It must be filled out and signed at the time of the swim classification testing,

Swim Classification Procedures

The swim classification of individuals participating in a Boy Scouts of America aquatic activity is a key element in both Safe Swim Defense and Safety Afloat plans. The swim classification tests should be renewed annually, preferably at the beginning of each outdoor season. Traditionally, swim classification tests have only been conducted upon arrival at a summer camp. However, there is no restriction that this is the only place the test can be conducted.

Salmon River High Adventure programs require this classification to be done prior to arrival.
 As indicated in the Safety Afloat Plan, all persons participating in canoeing/rafting activities are required to be "swimmers."

SWIMMER'S TEST

- Jump feet first into water over the head in depth, level off, and begin swimming.
- Swim 75 yards in a strong manner using one or more of the following strokes: Sidestroke, breaststroke, trudgen, or crawl.
- Swim 25 yards using an easy, resting backstroke.
- The 100 yards must be completed in one swim without stops and must include at least one sharp turn.
- After completing the swim, rest by floating.

This swim classification test can be done at the unit level by one of the following resource people: Aquatics Instructor, BSA; Cub Scout Aquatics Supervisor; BSA Lifeguard; certified lifeguard; swimming instructor; or swim coach.

NOTE: You may use a council approved swim classification list other than this form. Please make sure to copy it for each crew, write the crew number on each sheet, and circle the youth on the record that are in that particular crew. The minimum standards listed above for the person doing the swim classification test must be met. This form indicates the individual's swim classification as of the date listed below. The date the swim test was conducted must be within 12 months of the starting date of your expedition.
